

## Janitorial Products from Correction Enterprises

**C**orrection Enterprises provides quality products and services to its customers while offering job skill training opportunities to inmates employed by Correction Enterprises' plants. The price savings are significant as Correction Enterprises is required to keep prices "substantially in accord with that paid by governmental agencies for similar articles and commodities of equivalent quality". All departments, institutions and agencies "shall give preference to Correction Enterprises products in purchasing articles, products and commodities" (GS148-134). Items such as the janitorial products are available exclusively to tax-supported state, local and federal agencies, public schools, colleges and universities and non-profit organizations. In addition to the competitive pricing, purchases made from Correction Enterprises are exempt from the bidding process. Finally, Correction Enterprises is committed to providing our customers the highest standard of individualized service.

Correction Enterprises offers janitorial products that work as well or better than national brands at a significantly lower price than most brands. Products include: personal care items such as soaps and dispensers; facility cleaning products such as floor products, electronic dishwashing agents, and clothes detergents; and even vehicle maintenance products such as windshield cleaner and car and truck wash.

All orders that are \$100 or more benefit from free shipping direct to the customer's location, usually within ten working days. Orders less than \$100 will be charged an additional fee for shipping.

The new Janitorial Products Plant in Warren County began operation in late summer 2007. This 87,000 sq.ft. modern chemical plant replaced a 17,000 sq.ft. facility in Harnett County. Through its daily operations, the plant packages and warehouses wet and powder-blended products and bar soaps. It currently employs 72 inmates who receive valuable manufacturing skills in this production environment.

Not Just Making it Right. Making it Better

**Working Towards a Greener Tomorrow**

To preserve and to protect is what “going green” is all about, and Correction Enterprises is committed to finding ways to help protect the environment. Throughout the manufacturing process, we work to make our products compatible with the environment while utilizing practices that recycle, reuse and reduce wherever feasible.

Our investment of nearly \$70 million dollars into the Janitorial Products Plant in Warren County assures that our customers are able to purchase cleaning products that are 100% biodegradable, non-volatile, and non-corrosive. Many of our customers also use our Diluting System. This system accurately mixes the correct ratio of chemicals to water for use in spray bottles and mop buckets. Our state-of-the-art machinery even collects the shavings created when manufactured bar soap is cut and recycles it back for reuse.

**LIQUID ANTIBACTERIAL HAND SOAP**

Though mild on hands, this liquid hand soap has deep cleaning ingredients to wash away tough dirt and kill most disease-causing germs, including staph and e coli. Ready to use without diluting in our Liquid Soap Dispenser (55-068).

Correction Enterprises is helping to make the world a cleaner, healthier place. The Janitorial Products Plant produces soap for a non-profit organization that supplies World Vision, an international relief organization. The supplier is *Mission to Provide a Cleaner Tomorrow*, known as MPACT, based in Ohio.

Correction Enterprises has shipped 240,000 bars of soap for distribution in Ghana, Niger, Zimbabwe, Mali, Malawi, Haiti, Honduras, Nicaragua, Armenia, Albania and Mongolia. The plant has also produced 3,000 gallons of body wash for MPACT.

"What we take for granted--personal hygiene--others are literally 'dying to have' on a daily basis", said Klay Maynard, president of MPACT. "It is a blessing to work with World Vision and Correction Enterprises and let people provide help in areas of their expertise."

**D**esigned for easy, reliable use, Correction Enterprises' Electronic Dishwashing Dispensing Systems are delivered and installed by trained Correction Enterprises' technicians, who offer on-site training to your kitchen staff.

The systems are inspected and maintained monthly at no charge, and you'll receive regular inspection reports for your records. We also offer no-charge 24/7 rapid response to emergency calls.

With Correction Enterprises, there are no binding contracts to tie you down, and the specially formulated chemicals may be supplied by us, or you. Call today for a 90-day, no-obligation free trial.
