

METAL SERVING LINES

SERVING LINE COUNTER

FOOD SERVING CART

Whatever your food service equipment needs are, we can design and build it to your exact size and specifications.

These photos show a typical serving counter with sneeze guard, hot and cold food serving cart, a serving line cart and a silverware holder.

Custom servicing lines can be created for any kitchen or snack bar application, medical facilities, and more.

All food service equipment is fabricated in stainless steel and meets all NSF standards.

Please contact sales or customer service for more information.
